MEDIA STATEMENT ON OPEN ENROLLMENT AND ENHANCED PREMIUM TAX CREDITS

Today, the [State Marketplace Network](#) issued the following press statement:

As our State-based Marketplaces move into open enrollment, it is not too late for Congress to extend enhanced premium tax credits for our customers. If these tax credits are extended, State-based Marketplaces stand ready to act. We will work as quickly as possible to ensure the customers we serve continue to have reliable, high-quality, and affordable health care.

For more information about State-based Marketplaces, view [resources](#) about the enhanced premium tax credits (EPTC) tax credits. [Read and hear stories](#) from individuals and families experiencing these benefits.

###

The State Marketplace Network is a consortium of state leaders and staff dedicated to the operation of State-based Health Insurance Marketplaces and State-based Marketplaces that use the federal platform. StatemarketplacenetWORK.org
